

Greetings!

NOAA National Weather Service Pendleton is excited to announce our next Open House and you are invited. The Open House will be Thursday Oct. 13 from 10 am to 3 pm at 2001 NW 56th Drive in Pendleton.

Come see our weather exhibits and demonstrations, meet with our forecasters and see some of the technology and expertise used to produce your weather forecasts and warnings.

Check out emergency preparation, Life Flight operations, and the Pendleton Unmanned Aerial Systems Test Range. You can also track a weather balloon tens of thousands feet into the atmosphere. We will have children's activities, refreshments and door prizes as well.
